

REHAB 2 HOME

AN RSP SUCCESS STORY

Mr. Blackwood
with Lisa Hartmann,
one of his therapists

Meet Mr. Jeffrey Blackwood, a retired computer programmer. Mr. Blackwood has kept busy in retirement, working on computers and also with his favorite pastime-radio controlled planes.

In late December 2016, Mr. Blackwood had a massive stroke. He spent a few days in the hospital and was then referred to The Woodlands Rehab 2 Home program. When he first arrived, he required maximal assistance for all transfers and had great difficulty with his speech and verbalization.

That's when our therapists came in. Jeff received physical, occupational, and speech therapy from our rehab team. One of his early therapy goals was simply to sit up in a chair for a short time each day. Every day he progressed and every day he amazed the therapists with his improvements. By the time he discharged home on February 16th, he was transferring with stand by assistance, ambulating 400 feet with a walker, and having some great conversations with the therapists! He could even go up and down 4 steps with a therapist standing by.

Jeff Blackwood and the Rehab 2 Home therapists proved to be a winning team. Jeff, we can't wait to hear that you're back to flying your radio controlled planes! Congratulations on your success at Rehab 2 Home!
